

FIRST Tech Challenge **Rover Ruckus - Kick-off**

Presented by Bedford Robotics

September 8, 2018

Robotics Center *formerly Smith Road Elementary*
1135 Smith Road - Temperance MI 48182

FTC Blocks Programming: (10am & 11am)

A practice robot will be used to demonstrate how the software locates connected components on the robot. Basic programming to get everyone moving forward, saving your program to the phones and programming you game controllers.

Judges Presentation: (10am & 11am)

Be prepared for your judges presentation, learn how to prepare, what to present and what judges are looking for in your presentation.

Engineering Notebook: (10:30am & 11:30am)

Why is your notebook important? What goes in the notebook? Locate examples for content and formatting that are provided to all teams.

Strategy: (10:30am & 11:30am)

Strategize prior to design, prior to qualifying matches and prior to alliance selection. Scouting to collect data and using that data.

Team building games that will test your mind (10:00am to 11:45am)

NOON - Live Stream of the Kick-off Animation

Unveiling of the new game floor (following the Live Stream)

Open Game Floor:

The new game floor will be set-up in the FTC Room and will be available for teams to work with. Work tables will be provide for each team and there will be a sign-up sheet for teams to schedule time alone on the game floor. Bring your robots, laptops, parts..... whatever you need.
